

Professional Cordless Power Tools

ONE BATTERY FITS ALL RANGE

Impact Wrench | Drill | Impact Driver | Angle Grinder

PLUS: Professional EV Hand Tools

1/2" Drive Cordless Impact Wrench

The RG Tools cordless impact wrench has been designed with the latest 20v Lithium-ion battery technology, providing 50% longer runtime and 25% more power.

The brushless motor ensures that the wrench has a compact and streamlined shape while providing all the power you need.

We have added a 3-speed gearbox with variable speed trigger for superior and precise control. This RG Tool is perfect for working on automobiles or driving lag bolts.

The on-board LED light increases visibility allowing you to work under lower light conditions, turning on before driving the fastener and staying on briefly afterwards before automatically turning off.

Our choice of quality materials includes a specialised rubber over-mould grip for increased comfort and easy control, making this impact wrench a dream to work with.

Complete with 2x Li-ion 20V/4000mAh batteries and mains charging adaptor. Supplied in a robust plastic storage case.

- 3-speed gearbox with variable speed trigger for superior and precise control
- 1/2" shaft output with up to 1300 torque
- On-board LED light for better visibility
- Part of the 'one battery fits all' range

Cordless Drill

If you're a professional looking for a cordless drill that can handle heavy-duty use, look no further than the RG10010. Supplied with our 20v 4Ah Lithium-ion battery, this drill is perfect for any job that doesn't need access to electricity but still needs the power equivalent of a corded drill.

The RG10010 is perfect for drilling wood, steel and plastic as well as handling screwdriving tasks with ease. With a maximum of 1450 revolutions

per minute, this drill ensures speed and efficiency on each job. The 755 4 Pole Motor provides plenty of power, while the 90Nm Max Newton-Metre rating will give you the torque you need to get through even the toughest materials.

Our choice of quality materials includes a specialised rubber over-mould grip for increased comfort and easy control, making this cordless drill a dream to work with.

Complete with 1x Li-ion 20V/4000mAh battery and mains charging adaptor. Supplied in a robust plastic storage case.

- 20v Lithium-ion battery providing 50% longer runtime & 25% more power.
- 755 4-Pole Motor driven by two pairs of magnetic poles making this drill the perfect choice for heavy applications.
- 1/2" / 13mm chuck
- Precise speed adjustable trigger with up to 1450 RPM offering a maximum 90Nm of torque.
- Directional LED light.
- Part of our 'one battery fits all' range.

Cordless Impact Driver

If you are in the market for a cordless impact driver that's powerful enough to get the job done, but without all the extra weight and bulk of other options, we've got just the tool for you.

The RG10020 is a 1/4" hex drive impact driver which comes supplied with our robust 20v 4Ah Lithium-ion battery and powerful brushless motor combination that delivers a massive 320Nm of power at 4000 RPM. It's light, compact, and powerful - just

what you need to quickly drive screws into wood or other materials with or without guide holes.

The RG10020 takes advantage of the latest Lithium-ion battery technology and offers longer run times than comparable products on the market.

If you're looking for a new cordless impact driver that will help you finish jobs faster than ever before, look no further than the RG10020 from RG Tools.

Complete with 1x Li-ion 20V/4000mAh battery and mains charging adaptor. Supplied in a robust plastic storage case.

- Brushless motor offers high efficiency, low noise & smooth operation
- 1/4" HEX dr quick chuck
- On-board LED light for better visibility
- Fast, medium and slow impact modes
- Part of the 'one battery fits all' range

Cordless Angle Grinder

If you need a cordless angle grinder that's easy to use and powerful, look no further. The RG10015 is part of our one battery fits all range, which means it's compatible with any other tools in the range. It comes with a brushless motor and provides up to 7000 rpm without burning out or slowing down. It also has an input power of 700 watts, so you can use it for longer periods without needing to recharge the battery.

The RG10015 is cordless, so you don't have to worry about finding an

outlet near your project or getting tangled up in a cord while working! Plus, if your tool isn't compatible with other brands' batteries (like some cordless drills), this model will work in conjunction with all our other products in one convenient package.

We have sourced the very best, quality materials to create the RG10015 which includes a specialised rubber over-mould grip for increased comfort and easy control, this cordless angle grinder will help you finish jobs faster than ever before.

Complete with 1x Li-ion 20V/4000mAh battery and mains charging adaptor. Supplied in a robust plastic storage case.

- 700W of power which enables the RG10015 to out perform corded models
- 10,000 RPM idle speed. M10/M14 spindle. Supplied with one battery, charger & case.
- For precise cutting please use our RG20150 115mm thin cutting discs.
- Part of our 'one battery fits all' range.
