EVO Recycled Wood Fibre Absorbent

Fire retardant recycled wood fibre absorbent. For use on industrial spillages and general clean-up duties. The lightweight loose particulate is easy to handle and absorbs liquids quickly and easily.

- Leaves surfaces safe, clean and dry
- Enviro-friendly (recycled material)
- Lightweight product to transport and use
- Fireproof
- Harmless to humans, animals and plants

Part No.	Qty	Size
VC689	1 Bag	30 Litres

EVO Recycled Absorbent Pads

- Manufactured from 85% recycled natural fibres
- Sustainable
- Higher capacity than comparable polypropylene absorbents
- Greater fluid retention avoids secondary contamination during clean-up
- More cost-effective
- Low carbon footprint
- Fully recyclable packaging
- Ideal for companies seeking to reduce their environmental impact
- Can be used in all sectors of industry to absorb hydraulic oil, engine oil, gear oil, lubricating oil, coolant, fuels and mild acids

Part No.	Qty	Size
VC688	50 Pads	50 x 40 cm

CHOOSE EVO

EVO Recycled® is the solution for companies pursuing higher ethical and environmental standards without compromising performance and value.

EVO is made from 85% sustainable recycled cotton fibres. Recycling material that would otherwise be incinerated or go to landfills.

EVO has the lowest carbon footprint (169.3g) of any absorbent pad on sale in Europe. Traditional melt-blown polypropylene pads have a footprint of 431g.

Developed and manufactured not far from Cambridge University in England.

On average EVO absorbs 20% more than comparable polypropylene absorbents.

EVO is unbeatable value without compromise.
